

Kaavalry

Secure the Journey. Empower the Mission.

Who We Are

Kaavalry delivers world-class cybersecurity services to mission-driven organizations — from small and medium-sized businesses (SMBs) to nonprofits. Founded by a former CISO with decades of frontline experience in security, compliance, and risk management, Kaavalry operates as your virtual cybersecurity department, delivering results without internal complexity.

Facing These Challenges?

- Growing cyber threats and phishing attempts
- Strained budgets and limited technical headcount
- Pressing compliance demands (SOC 2, PCI DSS, HIPAA, donor/sensitive records protection, etc.)
- Risks tied to audits, insurance renewal, and investor scrutiny

Our Solution

Core Security Stack

Open XDR, cloud hardening, vulnerability and asset management, security awareness training, GRC, identity governance

24x7 Security Operations Center (SOC)

Round-the-clock active threat monitoring and incident response over your critical data

Expert Team

Our teams are comprised of veteran CISOs, security engineers, and compliance analysts

AI-powered Tools and Workflows

Reduce costs, accelerate threat detection, and streamline compliance across the organization

Fractional Security Department

Full coverage without internal overhead

Value Proposition

Kaavalry's Managed Cybersecurity Services provide scalable protection tailored to your organization's size, maturity, and mission. From foundational security oversight to advanced threat detection and response, we deliver expert-led coverage that aligns with your business goals — without the complexity of building internal teams.

Cost Efficiency Without Compromise

Traditional In-House Security Team	Kaavalry Fractional Model
1 CISO (\$250K/yr)	Fractional CISO access
2 Security Engineers (\$150K/yr each)	Shared engineering support
1 Compliance Analyst (\$90K/yr)	Embedded compliance services
Tool Stack (EDR, SIEM, VM, LMS, etc. – \$100K/yr)	Core tool suite included
Staffing, onboarding, overhead (\$50K+)	No internal overhead
Long ramp-up time (3–6 months)	Immediate deployment
 Total: ~\$700K+/yr	 Fraction of Cost
